Daphne Saves Christmas

Fire! Fire! Daphne! Help!

Wha happen now? Afta mi nuh see nuh smoke over yu house!

Well a while a go mi plug in di Christmas tree fi test it an a pure sparks mi see and the living room did full a smoke!!

Come Maizie, mek mi go look, cause you too smart. Before you try save yu house yu run lef it!

But Maizie yu waan bun dung yu house fi Christmas! Why yu have so much tings in one socket?

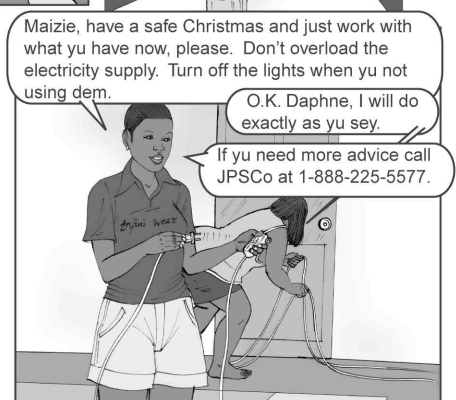

Mi nuh have enough socket. Wha mi fi do? Mi just get nuff extension and plug dem in a one anodda.

Maizie, yu house not safe at all. Yu know yu can trip over all these wires? Plus if yu walk on di wires dem can get damage and overheat an cause fire!

So wha mi a go do den?

A Certified Electrician need fi check di house and help yu sort out your problem.

Maizie, have a safe Christmas and just work with what yu have now, please. Don't overload the electricity supply. Turn off the lights when yu not using dem.

O.K. Daphne, I will do exactly as yu sey.

If yu need more advice call JPSCo at 1-888-225-5577.
